11 Click this field.

☐ Optional
Build failure will not block completion of pull requests.

Build expiration

☒ Immediately when `main` is updated

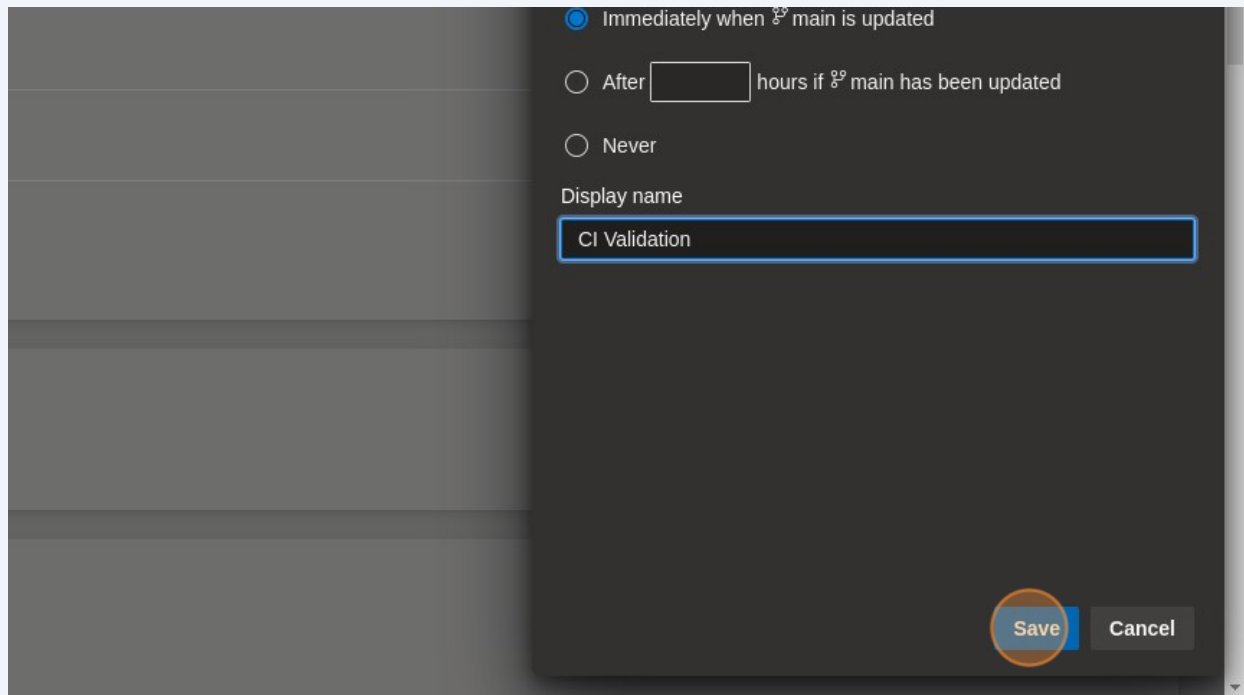

☐ After hours if `main` has been updated

☐ Never

Display name

12 Type "CI Validation"

13 Click "Save"

A screenshot of a settings dialog box with a dark background. The dialog contains three radio button options: "Immediately when  main is updated" (selected), "After hours if  main has been updated", and "Never". Below these is a text field labeled "Display name" containing the text "CI Validation". At the bottom right are "Save" and "Cancel" buttons. The "Save" button is highlighted with an orange circle.
